SUBJECT: Proposal for Appointing Channel Partner all India Basis.

Sir,

This is in continuation of discussion with the undersigned regarding association as a channel partner for Solar Water heating system, Solar PV Plant, Solar Street Lights, Earthling System, Anti Scale System and others Smart Villages related services

“DYSUN” is well known trade mark with a wide range of smart housing products from the Sustainable Himalayas, which is must for the new age energy efficient homes with global standards. Our products are environment friendly and economical. We have wide range of products which includes Solar Water Heater, Solar Power Plant (Off Grid & On Grid), Earthling & Lightning Arrester & Anti Scale System for your water supplies & Solar Street Lights.

We introduced Sustainable Himalayas Infrastructure Solutions (SHIS), is North India based social enterprise, committed and involved to provide eco friendly innovative comprehensive solutions for the people of Himalayan Villages as well as towns to improve the quality of life in terms of Health, Hygiene, Education, Clean Energy, Clean Drinking Water, Financial Inclusion and more.

We are one of the very few companies in India to offer an end-to-end solution for clean and sustainable leaving. We position ourselves as a one-stop shop for comprehensive and environment friendly solutions & management. Led by an experienced team of professionals from respective fields with proven records, we have been getting enormous response since inception.

We deploy our solutions to improve people's lives distinguished by its strength and vision it displays in taking on the toughest of challenges. Our team has strong capabilities, experience and expertise through financial inclusion, digital healthcare, solar street lighting, women hygiene, clean drinking water, solar water heater and solar fencing for farmers. We believe in creating infrastructure at village, block and district level by creating entrepreneur culture and create employment for the area. 'SHIS' (Sustainable Himalayas) solution for financial inclusion have been recognized and endorsed by the Honorable CM of Uttarakhand for exemplary work done on the remote villages and help them getting appropriate value for the produce, creating village level eco system and sustainability.

With solutions spread across 1000 villages/towns in Uttarakhand, Himachal, Jammu , Kashmir ,Leh , Ladakh & North East region. We are in the process of expanding to other states of India.

Thanking you,

For Team

Sustainable Himalayas
